

Justin Hayward, YOU

You don't even know my name
Time was when you would
Take the love you've given all away
Take a part of me
You don't even walk my road
Can't find where you turned
Looked away and you were gone
Now we're on our own
Old man is this why we're alone
I, I believe
What is lost for ever has brought the change in me
I, I believe
What is lost for ever has brought the change in me
You don't even know my world
I've tried hard to see
If I'd found the world you're looking for
There'd be a change in me
You don't even know my name
Time was when you would
Take the love you've given all away
Take a part of me
You've gone and changed the world I see
I, I believe
What is lost for ever has brought the change in me
I, I believe
What is lost for ever has brought the change in me
