

Justin Kawika Young, Soothe You

Baby, I can see it in your eyes,
Your day was long and you're so tired.
So tonight, there's nothing that you have to do,
Just relax, I'll take care of you (yes).

I know it's not a feast or fancy cuisine, but I've cooked enough for two.
And although it will not be a complete symphony, girl I will sing to you.

CHORUS:

Just let me soothe you, let the music move ya.
It's been a long, long time since you got to unwind.
Just let me soothe you, let the music move ya.
It's been a long, long time (it's been too long)
So just unwind tonight.

My love, I wanna make you feel just like a princess for at least one night.
For you the ambience must be complete,
Your pleasure is my first priority.

Although it may not be a mansion or a suite, there's love in every room (yeah).
Although there is no space for a fireplace, I hope candlelight will do.

CHORUS

INSTRUMENTAL

I know it's not a feast or fancy cuisine, but I've cooked enough for two (just for you),
And although it will not be a complete symphony, girl I will sing to you (you, you, you).

CHORUS (TO FADE)
