Baby power, I gotta ask me if I want to  
Tell me can I get a light  
No you up and let it run through,  
My babe  
'Cause I can always see fire and stars are behind you  
And I dont want ever come down,  
I'll just try and loving you  
'Cause now you got me hot up on me

Little Pusher Lover  
So high upon me say it babe
