

# Justin Timberlake, You're My Light (Why, When, How?)

Dum dum dum dum dum-dum

Do...

Do... Oooh...

You're still captivating even though it's been so long

You used to love me tell me baby what went wrong

'Cause now you march to the beat of a different song

Try to understand that we needed space

But everywhere I turn I see your face

I've been waiting for you to come home

'Cause I don't want to be alone

I still love you

Why did you take away your love

When did you think to just give up

How am I supposed to carry on now

Without you

You are my light

I have changed girl since I last saw you

When you left you don't know what you put me through

But my heart's still racing just being next to you

I can't escape the magic in your eyes

Is there a way to make you realize

There's no one more special to my heart

But you want us to be apart

I still love you

Why did you take away your love, baby

When did you think to just give up, yea

How am I supposed to carry on now

Without you

You were my world

You meant everything to me

You're the air I breathe

The song I sing

You were my queen, I was your king

But if we can try to work it

We'll show the world what love is about

Baby come on cause I can't take no more

Of this loneliness

And emptiness

Why did you take away your love

(Take away your love)

When did you think to just give up

(Oh...)

How am I supposed to carry on now

Without you

Why did you take away your love

When did you think to just give up

How am I supposed to carry on

Without you

You are my

You are my light
