

# Justincase, Breathe Tonight

I know you think you've got me figured out  
But you're about to see what it's all about  
I can't keep quiet much longer  
But it will stay beneath your breath I'm sure

[Chorus:]  
I can't take you waistin my time  
I can't keep on hearing those lies  
So step back and watch me breathe tonight

Where's the logic in your candybag  
That you've been cleanin' with your dirty rag

What you've labeled is not here  
But it will stay your worst fear

[Chorus]  
Anguish is your friend tonight  
Personal sound is right  
So lay down you inhibitions

[Chorus]
