

# Justincase, I Can Be The Death In You

You thought that you'd be hurt in the process  
Of leaving it all behind  
What did they tell you to make it warped with more time  
So sleep with one eye open - so I can see those baby blues

[Chorus:]

You seemed so fine that last time I saw you  
You seemed so fine watching the sunset  
You looked so bored on the arm of that guy  
How can you say all you can do is cry  
(All you can do is cry)  
What do you know but Marilyn Monroe  
Has left the building  
What do you say when Elvis' skirt is all blown up  
But if you don't believe that life's too short  
I can be the death in you

[Chorus]

[Chorus:]

All you do is cry, All you do is cry, Why do you cry
