

Justincase, The Hole

Concrete filled these walls
Since yesterday she's been gone
It will not end, the man inside
On both accounts, I will not hide
[Chorus:]

And I have seen the hole
And I can't wait to let it all fade
And I have seen the hole
And I can't wait
Imagination carried by
A lousy film that wants to die
And your influence isn't fluent
These dangerous minds are now alright
[Chorus]

And I have seen the hole
And I can't wait to let it all fade away
