

Justincase, When My Heart Falls Down

I believed in no one till I found you
I could see no one till I found you
I never knew my heart could break in such a way
That the best I get is in my dreams, but I'm not betrayed

[Chorus:]

When my heart falls down in troubled times
I won't let it die

When my heart falls down into your arms
I begin to cry

The end seemed twisted like my soul
That now seems wreckless, with no control
I wasn't much with love till I found you
I wasn't much for hate till I lost you

[Chorus]

I cut all the hair that you loved

So I could start over

I kept all the things you left

So I could remember

[Chorus]

The passion we fight can overcome

All that's said and all that's done

I will change all I knew

I will rise above everything but you

[Chorus]
