

Justine Electra, Killalady

Two ways to kill a lady (uh huh)
The first way
I don't wanna tell you about it here
The second way to kill a lady (uh huh)
Put it in her mind that she is full of fear

First night I saw you baby (uh huh)
You and me were alone in the room (uh huh)
You stroked my back so softly
All I could talk about was (oooh)
(I hear you, I hear you baby, uh huh)

You say you love me (I love you)
Then you destroy the things I make
You say you kiss me (I kiss you)
Then you get angry when I break
You say you're in there (I'm in there, baby)
When I see you fallin' out
When we go swimming (oooh)
Then you're jumping all about

First way to kill a lady (uh huh)
Ain't so easy as you would think (oh no)
Steal her shoes when she's a-sleepin' (uh huh)
Take her alcohol when she's lazy

(oooh)
I kissed her the first time
In my dreams and I thought that she wouldn't mind
But it's not true
She knows my name
And what I do

You say you love me (I love you)
Then you destroy the things I make
You say you kiss me (I kiss you)
Then you get angry when I break
You say you're in there (I'm in there, baby)
When I see you fallin' out
When we go swimming (oooh)
Then you're jumping all about

The first way to kill a lady
I ain't lyin' and I don't mean maybe
Just put soul on the radio
And put those hip-hop guys
Showin' their underpants y'know

It's my dream (my dream)
My fantasy
Don't take it away from me
You know what it means to me

You say you love me (I love you)
Then you destroy the things I make
You say you kiss me (I kiss you)
Then you get angry when I break
You say you're in there (I'm in there, baby)
When I see you fallin' out
When we go swimming (oooh)
Then you're jumping all about (uh huh)

Oh oh, kill a lady (uh huh)
Not maybe, think I'm crazy? (oh no)

Don't try it on your baby (uh huh)

(uh huh)

Oh oh, kill a lady (uh huh)

Not maybe, think I'm crazy? (oh no)

Don't try it on your baby (uh huh)

(uh huh)
