

Juvenile, A Million And One Things

[Lil' Wayne]

What

This.. this here's real, nigga

It's real, nigga

Too real

Pay attention even though I'm young, nigga

Look, look

This one here's on tha up, dog

For all my people with bad luck, dog

Strugglin', tryin' ta make a buck, dog

For all tha peeps who ain't with us, dog

For all my niggas in Angola, stay tough, dog

See, this from shorty on tha real

I'm tired of seein' my niggas gettin' killed

They hustlin' for a mil, nigga, hustle for your bills

If ya think ya need help, holla at me, wodie, I'm trill

If I got it ta spend, then I got it ta kill

But listen, man.. I know ya see tha ice glistenin', man

I know it make you wanna go get it bad

But ya gotta think 'fore ya move, partna

'Cause it'll make your ship sink and you will lose, partna

I know you hate ta take it from a young nigga like me

But I betcha can't name one nigga like me

That's why I'm tryin' ta preach, my nigga

And teach, my nigga

If ya don't work ya don't eat, my nigga

[Chorus 2x [Juvenile]]

They got a million and one things that you could be doin'

Than hangin' around this motherfucker talkin' to your children

Get off your ass, lil' daddy, and go and get it

It's starin' at ya right in your face, you ain't wit it

[Juvenile]

Look at ya, you're fuckin' up and I can tell it too

What is ya smokin'? Everything a nigga sellin' you?!

I know you could do better than that, and deserve more

Ya use to be tight with your game back in '84

All tha hoes use ta jock ya

Niggas use ta knock ya

Stay a big shot, motherfucker couldn't stop ya

Then ya went ta runnin' 'round tha project with them junkies

Holes in your shoes, and your body all funky

Lips all ashy, eyes popped out

Spendin' your children check, takin' food out they mouth

And you get mad with me 'cause I don't wanna give you ten

I don't support your habit, nigga, y'all grown men

I got kids ta feed, I got bills ta pay

I got people comin' askin' for shit everyday

I can't please everybody, but I love my folks

If I give ya everything, baby, I'ma be broke

[Chorus 2x]

[Turk]

Look... look.. look

Where I stay, times is hard for a lot of my peeps

Some of my rounds doin' bad.. can't even much eat

Everytime I pass through, beggin' me for a dollar

Thinkin' I owe them somethin', don't even wanna holla

Nigga who use ta be ballin' ain't ballin' no mo'

I can see they life fadin' away slowly for sure

Niggas who I come up with get me full of that dope

Use ta care about theyself, ain't care no mo'

Niggas want me ta help 'em.. ain't helpin' theyself
You must be out your mind if you ain't helpin' yourself
Ain't no love loss... I just gotta stay my distance
Gotta keep my mind straight.. before I come up missin'
Gotta do my rap thing, and make my paper, mister
Ain't gon' let nobody stop me from gettin' my six figures
Gettin' my shine on, bling-blingin' everyday
If you're not for tha right, stay tha fuck out my way, nigga

[Chorus 2x]

[B.G.]

Everytime I hit tha block, it look like it get worse
Make me wonder if V.L. and Magnolia got a curse
My niggas still my niggas... got love for 'em all
I hate to see that market ride they back and make 'em fall
Somebody tell me, if I didn't have change and I was broke
Would I get tha same attention when I'm in tha next four-door
No, I don't think so, I'll be a equal nigga
On the set, smokin' jo's, beggin' people for scrilla
On the reala... if I could do it, then you could
Lay your hustle down and make your way out the hood
Ain't nobody gon' give no hand-outs, I swear
Ain't nobody gon' pay tha bills in your house, I swear
They don't care, ya gotta stand on your own, my nigga
You ain't no child, look in tha mirror, you're grown, my nigga
Do yourself a favor: leave tha heroin alone, my nigga
And get your hustle on, nigga, get it on, my nigga

[Chorus 4x]

[Juvenile talking]

Man, you could be out here tryin' ta do somethin', man
I mean everytime we come through, man, I do somethin' for my people, man
I give tha little kids a dollar or so, ya know what I'm sayin'
I try ta do things for tha football team
Try ta take care of my people
Try ta show them how ta help theyself
'Cause they got a lot of problems
