

JVKE, ghost town: this is what tour felt like

I gotta get out
Of this ghost town
I gotta move on
I gotta get going with my life
Cause everything's haunted
By your ghost now
I gotta move on
I'm sick of this ghost town

Ever since you left, I went ghost,
So alone, I been so a
Ever since u left, I been low
Keepin' on the low, yea yea

I can't help but remember
All the nights we wasted together
Til your feelings changed like the weather
U got a so cold like December yeah

LAX is calling me
One way flight to all my dreams
Baby if I don't hit the road,
Ima drive myself crazy here alone

I gotta get out
Of this ghost town
I gotta move on
I gotta get going with my life
Cause everything's haunted
By your ghost now
I gotta move on
I'm sick of this ghost town

I gotta get out
Of this ghost town
I gotta move on
I gotta get going with my life
Cause everything's haunted
By your ghost now
I gotta move on
I'm sick of this ghost town

Sometimes I feel something like a ghost
Touch down in our city like a ghost
Fade right into into the black like a ghost
If I disappeared would anybody know?

And Sometimes I can feel you like a ghost
Like you follow me everywhere I go
Call me crazy or insane all I know is I feel you too close to let go, so

I gotta get out
Of this ghost town
I gotta move on
I gotta get going with my life
Cause everything's haunted
By your ghost now
I gotta move on
I'm sick of this ghost towns
