

K CAMP, Young & Free

We both thought this would last forever
They ain't wanna see us both together
Block your tears with Louis V umbrellas
I ain't mean to play with your heart
Know you think about us in the dark
My mistakes left us both apart
Should've kept it real from the start
(It's that Trappin N London, for sure)
Oh

Don't get too attached to my heart 'cause it get dangerous
Young and free, we do what we want here, ain't no tamin' us
Scared of love, product of this shit, so why you blamin' us?
Broke your heart, I told you, "I'm sorry," but you changin' up (On God, yeah)
We both thought this would last forever
They ain't wanna see us both together
Block your tears with Louis V umbrellas
I ain't mean to play with your heart
Know you think about us in the dark
My mistakes left us both apart
Should've kept it real from the start

Should've kept it real from the jump
Know I should've asked what you want
But you should've asked how I feel
You just wanted me to keep it real
Can we get a lil' more time?
Do a nigga cross your mind?
Do a nigga make you smile?
Baby, can you stay for a while?
It's okay, shawty ain't smellin' my pimpin' no more
But it's cool 'cause it go both ways
Waitin' on you to text my phone, but damn, it's been four days
Waitin' on you to hit my line but it's cool, work your place
'Cause I'ma do the same thing
Yeah, the same thing, shit, nobody changed
Played around with your pain
I feel lame, doin' me the same
But hell nah, I ain't goin' for it
Marni jacket with the Tom Ford (Can't do it)
I guess hoes down in Illinois (Gave in)
I guess hoes down in M-I-A (Can't do it)
Hit my phone, now I'm M-I-A (Talk to 'em)

Don't get too attached to my heart 'cause it get dangerous
Young and free, we do what we want here, ain't no tamin' us
Scared of love, product of this shit so why you blamin' us?
Broke your heart, I told you, "I'm sorry," but you changin' up
We both thought this would last forever
They ain't wanna see us both together
Block your tears with Louis V umbrellas
I ain't mean to play with your heart

Should've kept it real from the start
