

# K-Ci & JoJo, Don't Rush (Take Love Slowly)

Verse 1:

The look within your eyes, baby  
It makes me wonder why, lady  
You want to get with me, darling  
When I thought we were just friends  
Then you made your move on me  
You started moving on me strongly  
Even though nobody was around  
Still had to tell you to slow it down

Chorus:

And we don't have to rush the night away  
There's always going to be another day  
A time to make love and a time to play  
What I'm trying to say, take love slowly  
(Repeat)

Verse 2:

When I took you to my house baby you got buck wild  
Kicked off your shoes then you started dancing  
I said come over here, have a little seat with me  
All I wanna do is watch a little bit of TV  
You started rubbing on my leg, fingers in my hair  
Then you got silly, said let's play truth or dare  
I'm not in the mood, honey I swear  
Then you got out of control, had to get up out of there

Chorus

Bridge:

Don't rush it, don't rush it  
Don't rush it, don't rush it  
Don't rush it, don't rush it, baby  
(Repeat)
