

# K.Flavy, High Enough

[Intro]

(Ohh, ohh)

(Ohh, ohh)

[Verse 1]

I don't like anyone better than you, it's true  
I'd crawl a mile in a desolate place with the snakes, just for you  
Oh I'm an animal hand me a tramadol gimme the juice  
You are my citadel you are my wishing well my baby blue

[Pre-Chorus]

I used to like liquor to get me inspired  
But you look so beautiful, my new supplier  
I used to like smoking to stop all the thinking  
But I found a different buzz  
The world is a curse it'll kill if you let it  
I know they got pills that can help you forget it  
They bottle it, call it medicine  
But I don't need drugs

[Chorus]

'Cause I'm already high enough  
You got me you got me good  
I'm already high enough  
I only, I only, I only got eyes for you

[Verse 2]

Do you see anyone other than me?  
Baby, please  
I'll take a hit of whatever you got  
Maybe two, maybe three  
Oh you're phenomenal, feel like a domino, fall to my knees  
I am a malady, you are my galaxy, my sweet relief

[Pre-Chorus]

I used to like liquor to get me inspired  
But you look so beautiful, my new supplier  
I used to like smoking to stop all the thinking  
But I found a different buzz  
The world is a curse it'll kill if you let it  
I know they got pills that can help you forget it  
They bottle it, call it medicine  
But I don't need drugs

[Chorus]

'Cause I'm already high enough  
You got me you got me good  
I'm already high enough  
I only, I only, I only got eyes for you

[Bridge]

(Ohh)

Don't try to give me cold water  
I don't wanna sober up  
All I see are tomorrows  
Oh, the stars were made for us

[Chorus]

I'm already high enough  
You got me you got me good  
I'm already high enough  
I only, I only, I only got eyes for you  
(Ohh)  
(I only got eyes for you)

(Ohh, ohh)  
(I only, I only, I only got eyes for you)
