

# K Muni X ND, Down In The Rain (Irlandia - piosenka)

Through the highs and the lows  
Who'll be there in the end  
I feel like I changed the world with a pad and a pen  
When they said I couldn't do it  
Went and did it again  
When they said I couldn't do it  
Went and did it again

From nowadays to LT change  
Was amazing downhill since then  
It was never the same  
So much miscommunication  
Walls almost caved in  
If I'm really being honest  
I was don't in the rain

See I was down in the rain  
Had to go and make a change  
Attacks from the left and the right  
They were coming almost every single day

Hmm See I was down in the rain  
Had to go and make a change  
Attacks from the left and the right  
They were coming almost every single day
