

# K-OS, Black Ice

Sometimes the way we look at life can be too serious  
Cuz were dancin by the pale moon light  
I wake up in the morning and I feel delirious  
Cuz of something that I did last night  
But then the neighbor came on to me  
She said that life is more than we see  
You've got to be the change that should be  
So don't die, just try....  
Were just some fool with the lights on  
Hopin your coming too  
And turning up the mood  
I play it cool till the night is over  
When are you comin back  
To save this heart of mine  
Time to take it slow  
Black ice, white snow  
What if the truth is we don't really know  
If so then life is a mystery  
this could be then end of all history  
but wait the sun rises in the east  
And the world still spins 360 degrees on its axis  
This intergalactic practice  
of rhymin, proves there's no beginning or ending of timing, and it's been a long haul  
we've watched like the sun to get your back off wall  
People in the party in the light game show  
once again we dummin down to ease off the globe  
What's the definition of this thing called black  
I had a preminition 18 way back  
That black is the color of the universe from whence we came  
I wonder if my soul is on ice again  
Who put the lights on? Hopin your're comin too  
And turnin up the mood  
I play it cool till the night is over  
When are you comin back  
to save this heart of mine
