

K-OS, One Blood (Jiggy Homicide)

[K-OS]

Yo, check it out

[Verse 1]

When I rock it's like a deja vu

Revolution feel acu

When I grab this mic device and flip on all these [fuckin'] crews

I'm down for writers, breakers, movers and shakers

Illuminators

Somebody save us and take us to God who made us, blow

Liquor show, this is hip-hop

If I move to the east it still won't cease

So yo I don't stop

You get dropped by sonic waves

Caught in the maze ancient days

Heart of a lion, fire ablaze 'cause

[Chorus x2]

No time, so close

But it seems that there's just one blood

That's why, don't go

It's the one thing you can't think of

See what they were doin' was...enclosed..

Rooms and corporate structures

They were doin' experiments on MCs

So I broke out, and I came like this, yo

[Verse 1: Repeat]

[Chorus x2]

[x3]

This is homicide, useless homicide

This is homicide
