

# K's Choice, My Head

No, I know what you said  
But that doesn't mean that I understand  
And you don't know what I meant by that  
But it's sweet that you tried  
That you're on my side

If you were my head  
You'd know where it hurts  
You'd clean up the dirt  
If you were my head  
I would be heard

As close, as close as we'll get  
We touch and it's gone  
I must have been wrong when I thought  
Everything melts in us  
Though sometimes it does

If you were my head  
You'd know where it hurts  
You'd clean up the dirt  
If you were my head  
I would be heard

No, I'll never be you  
But I don't need to  
As long as you love me like you

If you were my head  
You'd know where it hurts  
You'd clean up the dirt  
And I would be heard  
If you were my head  
You'd know where it hurts  
You'd clean up the dirt  
If you were my head  
I would be heard
