

Kacey Musgraves, Glittery

You shake me up and turn me upside down
Just like a snow globe
And every time you touch me
I shiver right down to my toes
You've got a strange effect on me
You know you make me feel so
Glittery

You light me up like starlight on a
Christmas tree
Every single kiss is like a
Gift to me
And I love the way you decorate my heart
Outside it's coming down
But here inside, it's warming up so
When you take your time
You turn me on and make my life glow
You've got a strange effect on me
You make me feel so
Glittery

You light me up like starlight on a
Christmas tree
Every single kiss is like a
Gift to me
And I love the way you decorate my heart
The winter it's so gray, feels like
The ice is here to stay
But when you look at me, you know you
Melt it all away
Mm

And every single kiss is like a
Gift to me
And I love the way you decorate my heart, oh
So glittery
I love the way you decorate my heart
