

# Kacy Crowley, Kind Of Perfect

Why don't you talk about it  
I know there's something on your mind  
Will you go on and get a cigarette,  
I'll be waiting outside  
The last few years have been much harder  
Than we ever thought they'd be  
I know you hate it when I say I'm sorry  
But I'm sorry

There was never a point in our love  
That I didn't love you  
Not a point in our love  
I always did, I always will, I always do love you still  
I always would, how could I not hide, just look at us baby  
We're kind of perfect

Well sometimes I get all wrapped up  
Cause I don't know who to be  
But you know when to be my security blanket, and when to uncover me  
So let's just sit out on the back porch  
And unravel everything  
Someday these will be our old days, let's make them worth our memory

There was never a point in our love  
That I didn't love you  
Not a point in our love  
I always did, I always will, I always do love you still  
I always would, how could I not hide, just look at us baby  
We're kind of perfect

Never planned on loving somebody so much  
But I've always had pretty good luck baby

I always did, I always will, I always do love you still  
I always would, how could I not hide, just look at us baby  
We're kind of perfect

We're kind of perfect  
We're kind of perfect, baby  
We're kind of perfect, baby  
We're kind of perfect, baby
