

# Kaeyra, Sour

They said her beauty was beyond compare  
With auburn hair, and fiery stare  
But the mirror tells a different tale  
I don't see her standing there

Oh, I lost myself , for a minute there I suppose  
Oh, but now i'm back  
Feeling the rhythm taking a- hold

I can be sweet  
Or i can be sour  
Making you daydream about me for hours  
I could be cool  
Or I could be karma  
Don't need your love no more i'm empowered  
Broke my heart but now my eyes are dry  
Thoughts of you will never cross my mind  
Please please, believe when I say  
I'm the one that got away

My revenge was walking door to door  
There ain't nothing like a woman scorned  
I ain't nothing like the girl you knew  
I'm so much better than before
