

Kai Tracid, Contemplate The Reason You Exist

Listen carefully

As I introduce You to a world like no other

A world far beyond your wildest imagination

A place where your dreams come to life

Far away from the place where evolution is the key to your survival

Relax

As you drift deep into your own thoughts

Contemplate the reason you exist

Will the value of your triumph's today be worth the same tomorrow

Or

Will it self destruct and destroy the human race as you know it,

Will you control your life ?

Or

Will your life control you ?

Now follow me freely, as i lead you to

My own reality
