

# Kai Tracid, Too Many Times

Too many times you have been high  
Too many times you ran away, no need to cry  
Too many times your body lies awake  
Too many times these pills you take

Too many times you've woken up depressed  
Too many times you put your life to the test  
Too many times you've taken this trip  
Too many times you have slipped

Too many times your body can't take  
Too many times you've made a mistake  
Too many times you haven't realized  
Too many times your mind became paralyzed
