

Kainos, Alive

I haven't felt this way for anyone
Not the way I fell tonight
You have caught me in this moment
Like being swept in an ocean tide

Cause the love you give
Is what's keeping me

Alive
You breathe in me
Your life is feeding me
Your light shines on me
Your love is keeping me
Alive

In your eyes I found a secret
And in your smile an open door
Your heart led me down a pathway
To place I'd never been before

Cause the love you give
Is what's keeping me

Alive
You breathe in me
Your life is feeding me
Your light shines on me
Your love is keeping me

I know you're gonna love me
And never let me go
Until all time is spent
Cause the love you give
Is what's keeping me

Alive
You breathe in me
Your life is feeding me
Your light shines on me
Your love is keeping me
Alive

Alive
Alive
