

# Kaiser Chiefs, Heavy

Come on, get into trouble with all your friends,  
You're in to new self destruction, Kill all your friends

Yeah, come on  
Give the world more  
Easy, give it all that you can

Shut up, You're making me feel sick,  
I hate your voice  
Pour coffee into your hi-fi, it makes a noise

Come on, get in, come on, get in  
Come on, come one

You know when you've made it  
When no one can take it  
Get heavy or make it your own  
No one sees you when you're heavy breathing,  
Get heavy and make it your own

Get down, stay out of trouble, with all your friends  
Staying away for the weekend, It starts again

Come on, get in, come on, get in  
Come on, come one

You know when you've made it  
When no one can take it  
Get heavy or make it your own  
No one sees you when you're heavy breathing,  
Get heavy and make it your own
