Kaiser Chiefs, Telling Me To Go

5 o'clock in the morning Never seen that before Wish you'd given me a warning Stood on a plug on the floor

I'll deliver a classic Like nothing you've heard before Please don't force me to rush it It's gotta be a perfect four

Just you telling me to go There's no way I'm gonna go And I owe I owe To everybody in the show

6 o'clock in the morning Only an hour has passed God the present is boring I said I loved her in the past

Didn't like sitting in traffic Having to listen to you We've just written a classic I pre dibby dibby do

Just you telling me to go There's no way I'm gonna go And I owe I owe To everybody in the show

Said it's gonna run and run Until it's seen by everyone You want me to go away Which means I'll stay and stay and stay

Just you telling me to go There's no way I'm gonna go And I owe I owe To everybody in the show

Said it's gonna run and run Until it's seen by everyone You want me to go away Which means I'll stay and stay and stay
