

# Kaiser Chiefs, Think About You (And Like It)

Hold me down I'm so excited  
Feeling good but slightly frightened too  
I feel it in my blood and I like it  
I think about you, oh when I'm leaving  
Hold me back I'm so exhausted  
Never happened like we reported to  
It scares me half to death and I like it  
I think about you, oh and I'm leaving town

I think about you and I think about leaving  
I think about you before I think about breathing  
I think about you when I think about leaving  
I think about you...

Oh my God, I can't believe it  
They're still waiting to receive it now  
I take you in my arms and I like it  
I think about you, oh when I'm leaving home

I think about you and I think about leaving  
I think about you before I think about breathing  
I think about you when I think about leaving  
I think about you...
