

# Kaiser/Mansfield/Howard, I Found Out

Spent my time / livin' for myself  
Spent my sanity / threw away my health  
Life was a party / last one to leave  
But soonr or later / it'll tke you to your knees  
(yes it will)

I found out / love made the difference for me  
I found out / love gave me eyes to see

I came up swingin' / singin' and playin' the blues  
From town to town / the road filled with dope and booze  
When I came to / in a hospital room, nearly dead  
It was the mercy of God  
And that's something I'll never forget

(Bridge)

Smarter people / don't have to touch the fire to learn  
You reap what you sow / but one thing you'll never earn  
God's love / God's love made the difference for me  
I found out / His love still satisfies me

Oooh I found out (yes I did)  
I found out
