

# Kaiser/Mansfield/Howard, It's Only You

In the night  
When the silence falls  
Through the night  
I hear the echo of your call

There's no cheering of the crowd  
There's no bright lights allowed  
Just this heart inside of me  
And in the darkness you're all I see

It's only you - I can talk to  
It's only you - I can hear  
It's only you - I can turn to  
It's only you - forever near

Take my life  
It's not an overnight affair  
Take my soul  
I have only you to share

So precious is our time  
Show me how to use our time  
Place a fire inside of me  
So in the darkness you're all I see

It's only you - I can talk to  
It's only you - I can hear  
It's only you - I can turn to  
It's only you - forever near

There's no cheering of the crowd  
There's no bright lights allowed  
Just this heart inside of me  
And in the darkness your face I see

It's only you - I can talk to  
It's only you - I can hear  
It's only you - I can turn to  
It's only you - forever near
