

Kaiser/Mansfield, In The Light Of The Morning Star

The sun comes peak'n over the hill
here I am with an old bent heart
say'n Savior I will walk this day
in the Light of the mornin star

(chorus)
O Savior, Savior
I'm so glad I know who you are
God grant me just to walk with thee
In the light of the mornin star

The moon comes down
shinin on the earth its a wonderful thing to behold
but someday I know we have been fore told we will
walk on streets of gold

(repeat chorus twice)

Holy Ghost you point my way to the Prince of the
Heavenly Host
I may be all I should be for the one who
loves me most

(repeat chorus twice)
