

Kaja Czulewicz, You Know The Way

When you wake up everyday
Your thoughts go in the same way
To make your dreams come true
You must focus on what you have to do

Build your better life
Get rid of uncertainty
Like hitting of the knife
Defeat your adversity

You know the way
So you can find a place to stay
Your space to hide

Even when all else fails
And everything turns against you
Never give up when hopelessness assails
Cause after the rain a sky goes blue

Build your better life
Get rid of uncertainty
Like hitting of the knife
Defeat your adversity

You know the way
So you can find a place to stay
Your space to hide

Sometimes you wonder: What we choose?
And nobody knows the implications
It's hurts when you have something to lose
But never give up and go through life's complications
/2x

Build your better life
Get rid of uncertainty
Like hitting of the knife
Defeat your adversity

You know the way
So you can find a place to stay
Your space to hide

You know the way
You will be fine
It's just to early to say where's mine
