

Kajagoogoo, Jigsaw

Walking in the night
A prisoner of the street signs
They all get me nowhere
Searching hard to find
Any hidden doorway
That might lead me to you

You gave to me
Your precious love, your precious love
You gave it all to me
Your precious love, your precious love

Standing in the rain
A victim of the night fall
In the sleeping city
Try your door again
I'll rattle every letter box
Before I give in

Love is like a jigsaw
Life is like a jigsaw
Tell me what you're looking for
I'm picking up the clues
Like pieces of a jigsaw

Alone here in my home
I'm hiding in the corner
And I'm asking questions
Said all this before
I'll say it once again
For my absent friends

You gave to me
Your precious love, your precious love
You gave it all to me
Your precious love, your precious...

Love is like a jigsaw
Life is like a jigsaw
Tell me what you're looking for
I'm picking up the clues
Like pieces of a jigsaw

1-2-3-4...

Love is like a jigsaw
Life is like a jigsaw
Tell me what you're looking for
I'm picking up the clues
Like pieces of a jigsaw
