Kalle Baah, Earth A Come Burning

It's our lifes we're living
Earth a come burning
So we are go singing
Give me, give me loving

Everytime I hear them speaking
There's no way to brighter day
Everytime I hear them talking
Our speech seems to melt away

In this time and in this crisis
Is this the price we've got to pay ?
Please, stop your regulary violence
Before the judgment day

It's our lifes we're living
Earth a come burning
So we are go singing
Give me, give me loving

Open your heart and show me your love
And take me to a safer place
Where no evil one can harm us
Or destroy the human race

I don't wanna end up in a restless dream of life
I don't wanna lossing love and see you waiting for me in the skies above
