

# Kalle Baah, You Are My Angel

You are my angel and you light up  
You are the queen in all the race  
You are my angel and you light up  
You are the queen in all the race

Me no bad bad one all of the time  
Me no sad sad one when I drink up the wine  
I gonna dress me up, go looking for fun  
I gonna change my name to Don Juan  
Me no shilly shally, I know what I want  
Me no shilly shally, I know what I need  
Me no shilly shally, I know what to say  
Me no shilly shally, I'm gonna take you away

You are my angel and you light up  
You are the queen in all the race  
You are my angel and you light up  
You are the queen in all the race

I gonna ring your bell and ask for a date  
I gonna run like hell not to be late  
I gonna swing your legs up in the sky  
I gonna strip off your clothes and give you a try  
Now I'm ringing your bell and you want me to tell  
To Come out for a ride, I'm your midnight guide  
We gonna find some place under the sun  
And run a bed race till the morning come

You are my angel and you light up  
You are the queen in all the race  
You are my angel and you light up  
You are the queen in all the race
