

Kamaliya, I'm Alive

I don't know where I am
And to begin you're closer than the skin I'm in
I know I never felt alive
Yeah, you're every wish
I can't resist, my body just kept giving in
You run your fingers up and down my back
Back, back, back, back, back
Hands on my heart, I've never gone this far before
Now my head is just spinning out of my control

I can't control this feeling
This feeling's believe, unbelieving
And I'm coming alive, I'm coming alive
Feels just like I'm flying
And there's no denying
That I'm coming alive, I'm coming alive

When you reach for me
When your touch tells me everything I wanna hear
And I know all that had to be a freak
Freak, freak, freak, freak, no
I see you clear, just love and love
And know you'll always be near
All I gotta do is say your name
Name, name, name, my love

Hands on my heart, I finally found some fun
In life and I know now
That here is where I belong

I can't control this feeling
This feeling's believe, unbelieving
And I'm coming alive, I'm coming alive
Feels just like I'm flying
And there's no denying
That I'm coming alive, I'm coming alive

I'm alive, I'm alive for the first time
I'm alive
I'm alive

I can't control this feeling
This feeling's believe, unbelieving
And I'm coming alive, I'm coming alive
Feels just like I'm flying
And there's no denying
That I'm coming alive, I'm coming alive

For the first time
