

Kamaliya, Rising Up

The sun is rising up, my heart is racing
I feel you're closer now
Why are you pacing?
Don't be so serious, we have...
Just be mysterious and move your body!

Pre-Chorus:
I wanna misbehave,
feel so free, only you can ...
When I feel you near me
All the way, lead astray,
And I keep you in me
Like a ..I just...
When I feel you near me!

Chorus:
Rising up, I feel again
If our love is full
I'm in love with you!
All the world is in my hands
Just you and me tonight
Make me feel alive!
Rising up, rising up, rising up again!
I'm still dreaming!

..so come and get me
And if you feel this luck, don't ever let me
I live a fairy-tale, it feels like flying
I feel you closer now, is it worth trying?

Pre-Chorus:
I wanna misbehave,
feel so free, only you can ...
When I feel you near me
All the way, lead astray,
And I keep you in me
Like a ..I just...
When I feel you near me!

Chorus:
Rising up, I feel again
If our love is full
I'm in love with you!
All the world is in my hands
Just you and me tonight
Make me feel alive!
Rising up, rising up, rising up again!
I'm still dreaming!

Rising again,
I'm only dreaming!
Rising up, rising up, rising up!

Chorus:
Rising up, I feel again
If our love is full
I'm in love with you!
All the world is in my hands
Just you and me tonight
Make me feel alive!
Rising up, rising up, rising up again!
I'm still dreaming!
