

# Kamil Krupicz, Tonight

What easy comes, easy goes  
Tonight I can't care less  
I guess the reason why you're here  
Is that love brought you too much pain  
You don't even know, My name  
Spread your wings and show your soul  
Let's dance until we're dead

Tonight  
I'm gonna make you mine  
Tonight  
We're gonna do it wild  
Tonight  
It's not about  
eternity  
eternity

It makes me crazy  
When you dance  
And swing your hips like this  
You're my favourite dancing queen  
I've never moved like this  
You can close your eyes  
Close your eyes and take a deep breath  
Show me what you've got

Tonight  
I'm gonna make you mine  
Tonight  
We're gonna do it wild  
Tonight  
It's not about  
eternity  
eternity

Take my face in your hands  
Kiss me  
We're not done here
