

Kamp!, Play me dirty

I know we could be friends
Cause we're not like the others
And it always ends whit us
Faking each other
Stop calling me in
You better watch me go
I just got one more thig to hide

Anxiety's ok
You can follow through your pain
Every other way
You fell into you lies
Speak about the Times
Every other way

I know we could be firends
Cause we're not like the others
And it always ends whit the drugs and the lovers
Stop calling me in
You better watch me go
I just got one more thig to hide
