

Kan Mikami, Lesson 7 Glasses

Turning spirals
Two circles

Two batteries from the dollar store
Five metres of kids' craft copper wire

Adding gold to a hidden taste
And sending it to you

It's nice, isn't it
Playing with it till you drop from exhaustion!

There's nothing worthless in this world
Even dreams that should be discarded

There's no one who makes a mess of death

People mix with people
People entwined with people
Anyone can become a god
All people are gods
