

Kandi, I Wanna Know

[chorus]

If you got kids back home I wanna know

If you don't I wanna know

If you're straight or you ain't I wanna know

If you're broke I wanna know

I wanna know, I wanna know, I wanna know

I wanna know, I wanna know, I wanna know

[verse 1]

If you wanna be with me I gotta know

What you doin', where your goin'

Where you have been

Who you loved, who you liked, who you seein'

Before I let you in

Because I learned from my past...oh yes I did

Met a guy that I liked, he was my type

But he lied 'bout his wife and he tried

To play me, play me

[b-section]

Now how long was he goin'

Wait before he told me 'bout that

I can't believe he did me like that

Something I should've known

But I've learned my lesson

Not again will I be naive

I need to know the secrets ya'll keep

Cause what I don't know can come back on me

[repeat chorus]

[verse 2]

If you wanna fall in love...gotta be aware
'bout the life that your lover's been leadin'
So you know if they gonna be schemin'
Or if they gonna dog you out
Cause I know I've had my share...oh yes I did
Did me wrong...stayin' at some woman's place
I'm just glad he was not a closet case
Deal with cheatin'...but not that way

[repeat b-section and chorus]

[breakdown]

Ladies, oh ladies
Find out all the partners he's had
So later on you won't be mad
Findin' out what you don't know
Fellas, oh fellas
Check for that Adam's apple
So you won't be on no talk show
Finding out what you don't know
[repeat chorus]
