

Kandi, I Won't Bite My Tongue

[verse 1]

You stood there thinkin' you were all that

And I did too

You took too long to step to me

So I just step to you

We talked all night about all

That you could do

If I could've foreseen what's

Behind those jeans

Oh I'd a' never talked to you

[b-section]

Cause damn, I thought you'd be packin' and

Damn I thought you'd put your back in it

Damn no you didn't, so you're finished

And I gotta let you know cause you gotta

Loose my number

Damn you had the worst sex and

Damn you didn't last a second

Damn no you didn't so you're finished

And I gotta let you go

[chorus]

I won't bite my tongue

The "D" wasn't good so you can't get none

Our first will be our last

The "D" was trash sorry ass and ya need to know

[repeat chorus]

[verse 2]

Don't kid yourself baby

I'm not impressed

You talk too much, couldn't back it up

And your stroke was just a mess

I won't bite my tongue

Cause you said that I would be sprung

I can't tell what'cha did to me

Cause before I got mine you were done

[repeat b-section]

[repeat chorus]

[bridge]

Before you take me oh baby

Make sure that you know

How to make me

Fulfill me

If not, don't you come my way

Oh no, oh no

[repeat chorus]
