Kandi, Sucka For You

I was a sucka for you

So crazy in love with you

But I'll be damned if I do

Nothing else you want me to do

Cuz I got played for the fool

And you know that wasn't cool

You made it harder for the brothas

Cuz of you I just don't trust 'em

[verse 1]

I thought it was all good

Me and you sayin' that you my boo

Never knew that you was doin' the do

With every girl givin' out hoochie coo

But now I find

And it just blows my mind

That everytime

I said that you were mine

They were laughin' behind my back and

When I found out I was so sad

[b section]

Then I said hold up, wait a minute

Slow down, turn around

Are you really gonna let that bull-shhh go down

Letting him back now I don't see how

When you know that he's been getting around

With every girl in town

Throwing down

And everybody knows about it

Made it harder for the brothas

Cuz of you I don't trust em

[repeat hook]

[verse2]

I thought I had turned you out

Cause you told me I was the fire

Never knew that was just a line

That you said just to get my time

U had me feelin' like such a fool

cause I gave you the boody too

You were playin' with my head

Just to get me in your bed & ...
