

Kanye West, Muzik

[Samuel Christian]
You ready?

[Knoc-Turn'al]
Yes, ha ha ha
Yeah, yeah
Let's go, I like singing

[Knoc-Turn'al]
My music, my life, my heart, my soul
My music, my everything, I give my all
My wife, my daughter, my love, my dream
My mother, my father, my brother, my team
My camp, my squad, my house, my car
My boat, my shoes, my pants, my shirt
My coke, my sugar, my cream, my butter
My toast, my all, my queen, my folks

[Chorus: Samuel Christian]
My baby! Walk like six strings
Talk like she's my everything
My baby! Loves me, hates me
Leaves me, runs right back
That sexy lady! All I know
She shares all my confusion, so
My baby! Will not run from an-y-thing
I swear this though

[Knoc-Turn'al talking]
Now I lay me down to sleep
I pray the Lord, my soul to keep
If Muzik should die before I wake
I pray the Lord, my soul to take

[Knoc-Turn'al]
She's thick, she's bad, so clean, she's fine
She loves, she hates, she laughs, she cries
She hurts, she lies, she's Bonnie, I'm Clyde
She's ghetto, she's real, she sings, she rhymes
She comes, she goes, she lives, she dies
She sexy and bomb, she blows my mind
She stays in line, she's smart, she's funny
She's crafty and cunning, in the game she's running
Her lips, her back, her waist, her thighs
Her face, her skin, her hair, her eyes
Her voice, her shape, her hips, her mind
Her love, her smile, her touch, her time

[Chorus]

[Knoc-Turn'al]
I'm tipsy, I'm through, I'm drunk, I'm blunted
My way, my day, my life - I love it
I move, I groove, I shake, I love it
My friends, my kins, I like, I love it
I show, I prove, I live, I learn
I show, I teach, I run these streets
My kin, my heart, my heat, my rhythm
My rap, my beat, my life, my head and my feet
My heart, my soul, my candy, my cake
My platinum, my gold, my land, my gate
My Benz, my lake
My keys, my money, my love, my hate
My clothes, my phone, my house, my home

My money, my comb, my sugar, my spice
My base, my chrome
My rhythm, my music, my home
My world, my girl, my life, my home, my...

[Chorus] - repeat until fade
