

Karate High School, 88 Million Light Years Away

88 million light years away

I dont want to pick up the pieces, I want to start sometihng new.
I want to start a brand new day, 88 million light years away.

It feels like im travelling at light speed in reverse,
and as I mature everything on earth stays the same.
and dont you doubt that I say the same prayer every night,
I pray that when I wake up i'll find im 88 million light years away.

I dont want to pick up the pieces, I want to start something new.
I want to start a brand new day, 88 million light years away.
I dont want to pick up the pieces, I want to start something new.
I want to start a brand new day, 88 million light years away.

what would it take to change the lines of your fingerprints?
because im convinced that something else better exists.
and dont you doubt that I say the same prayer every night,
I pray that when I wake up i'll find im 88 million light years away.

I dont want to pick up the pieces, I want to start something new.
I want to start a brand new day, 88 million light years away.
I dont want to pick up the pieces, I want to start something new.
I want to start a brand new day, 88 million light years away.

Do you ever get the feeling?

do you ever get the feeling when you look around the room,
that if you cut the person right next to you, sparks would fly out?
do you ever get the feeling when you look around the room,
that if you never came back it would be too soon?
do you ever get the feeling, when you look around the room,
that not a damn thing in here is fresh or new?

I dont want to pick up the pieces, I want to start something new.
I want to start a brand new day, 88 million light years away.
I dont want to pick up the pices, I want to start something new.
I want to start a brand new day, 88 million light years away.
I dont want to pick up the pieces, I want to start something new.
I want to start a brand new day, 88 million light years away.
88 million light years away
88 million light years away
