

# Karl Martindahl, Call You

It feels like a thunder everyday  
Your around but i don't know what to say  
Oh Baby, tell me what i got to do  
Oh and I can see the lightning, in your eyes  
I wanna hold you tight trough the sunrise  
Oh Babe. Tell me what i got to do  
Hey Hey Hey  
And I'll Be There to please you  
If you only call my name  
I have got this feeling  
that someday you'll feel the same

I'm gonna Call you when your lonely  
I'm gonna call you everyday  
Say the words that you want to hear  
It's a game for two, that I want to play

I've got a whole lot of lovin'  
I'm gonna give it all to you  
Never stop, No I won't give up  
'till our love comes true

And it feels like magic, saying to you  
Then when you smile, I am smiling too  
Oh Baby, Tell me what I got to do  
Hey Hey Hey  
The words I say I mean them all  
I'm speaking from my heart  
And if it was for me to chose  
We never 'part  
No No No No No

I'm gonna Call you when your lonely  
I'm gonna call you everyday  
Say the words that you want to hear  
It's a game for two, that I want to play

I've got a whole lot of lovin'  
I'm gonna give it all to you  
Never stop, No I won't give up  
'till our love comes true

And when your weary  
When your cold I'll hold you  
Then you will see  
Just what you mean to me

LaLaLaLaLa  
Ca-Ca-Call you when your lonely  
I'm gonna call you everyday  
Say the words that you want to hear  
It's a game for two, that I want to play

I've got a whole lot of lovin'  
I'm gonna give it all to you  
Never stop, No I won't give up  
'till our love coms, love comes true
