## Karla Bonoff, If He's Ever Near

They say just once in life You find someone that's right But the world looks so confused I can't tell false from true

And love's so hard to find In this state of mind Oh i hope I'll know him I hope I'll know him If he's ever near

Well it seemed the time had come I thought you were the one When I looked into your eyes It never looked like lies

And love's so hard to see That when it's in front of me Oh I hope I'll know it I hope I'll know it If it's ever near

Cause love's so hard to see And when it's in front of me Oh I hope I'll know it I hope I'll know it If it's ever near

Well I know that in my time I'll have it sweet and fine But it won't add up to much Unless I feel his touch

And love's so hard to find I guess I'll just give up trying But I hope I'll know him I hope I'll know him If he's ever near
