

Karmakanic, Cyberdust From Mars

Rocket launch, time to fly, (?)candles up(?)
Getting high in the sky, cyberdust from mars

Travelling fast in the milkyway,
nothing more, nothing left to say
In the sky, cyberdust from mars

I breed the cosmic revolution
I breed planets and stars
I breed the sonic evolution
I breed cyberdust from mars

Virtual contact, I'm in a flow.
Pretty maids in a row.
In the sky, cyberdust from mars.
