

Karmin, Sugar

Saw ya out by the pool on the 8th of July
Didn't think much about it at the time
Didn't know that I have to cross this line
Didn't know, didn't know
I remember the guy who lost his pants
Took the hit and we laughed and then we danced
Now I'm around you and I don't trust my hands
Help me out, help me out

Now that we're cool, we can just chill, we can be friends
The problem with that's I've gotten in over my head

I can't think about anybody but you
Sugar, I can't think about anybody but you (but you)
I can't think about anybody but you (you)
Sugar, I can't think about anybody but you (but you)

Take your time, work it out with a bottle of wine
Give a word, give a wink or give a sign
Let me know before I lose my mind,
Let me know, let me know (let me know)
How far do you think that this could go? (how far go)
I just signed your name with an X or an O, (signed your name)
We could rush it or we could go slow, (we could rush)
Go slow.

Now that we're cool, we can just chill, we can be friends
The problem with that's I've gotten in over my head

I can't think about anybody but you
Sugar, I can't think about anybody but you (but you)
I can't think about anybody but you (you)
Sugar, I can't think about anybody but you (but you)

You know what? (You know what?)
I used to be the type like watch and learn
But you can teach me how the tables turn
Got a O pro feelin' like an amateur
Makin' it up as I do it entrepreneur
If I say the right things, would you come to me?
If I play the right strings, can I sleight the piece?
You're the one that I want, I gotta do somethin'
You got me feelin' right, like uuuh, yummy
The hustle, bustle sitting on the cusp of
Crisis, ya Midas, touches for the diamonds
Can we survive with a faith like the mayans
How can I live when the way I feel about you is intentional, dimensional,
Flirtation is inevitable, chemical, edible, side effects regrettable
My best judgement fights with the liquor
Is that a sparkle in your eyes or a flicker?

Now that we're cool, we can just chill, we can be friends
The problem with that's I've gotten in over my head

I can't think about anybody but you
Sugar, I can't think about anybody but you (but you)
I can't think about anybody but you (you)
Sugar, I can't think about anybody but you, baby

Sugar, you're so sweet
You're so sweet to me (sweet to me), yeah.

Sugar (ooh, sugar)
You're so sweet (you're so sweet)

Sweet to me.

I can't think about (Uuh, sugar)

Uuh Uuh Uuh (you're so sweet, sweet to me)

I can't think about anybody but you (Uuh, sugar)

Sugar, I can't think about anybody but you (you're so sweet, sweet to me)

I can't think about anybody but you (Uuh, sugar)

Sugar, I can't think about anybody else but you, (you're so sweet, sweet to me)

Anybody else but you.
