

# Karoline Kruger, You Call It Love

You call it love  
There are things I need to say  
About the way I feel  
When your arms are all around me  
You call it love  
Words I'd heard that sound so fine  
Meaningless each time  
Till you came and found me  
See the ground is slowly turning  
dizzily, easily  
Feel the way my heart is burning  
secretly inside of me

You call it love  
All the wishes in my mind  
Soared into the skies  
Where reflected in my own eyes  
You say it's love  
variations on a theme  
Love was just a dream  
Memories of past sighs  
See you love is always round me  
Everywhere in the air  
New sensations now surround me  
Ocean wide deep inside

You call it love  
All my days past close to you  
Grey skies turn to blue  
And the sun shines all around me  
You call it love  
It's a phrase that people say  
Each and every day  
Real love is hard to find though  
See the ground is slowly turning  
dizzily easily  
Feel the way my heart is burning  
from your touch secretly

You call it love  
Now I know it's so much more  
Being close to you  
Makes this feeling new  
that you call it love.
