

# Kasabian, Trash Can

No turnin back, No turnin back  
My friend you got a glassjaw  
But I like it  
I see my head this time  
And I'm, I'm a fugitive  
But a less for the long run  
I'm aware, I'm aware that I, I can't get down  
I cheat the sun as I'm fallin off  
As you pass them off on me  
And I'm...I'm sorry but nobodys safe  
Nobodys safe

No turnin back, No turnin back  
The circuitry has bound my face to a line  
Blood pass this body  
But I feel that I've been saved  
Pulse with the heartbeats  
Backtrack the clock  
It keeps on knockin  
Its changed and betraying me

I see no sun and I feel alright  
And I call out "its suffocating me"  
Cause Nobodys safe  
Nobodys safe
